PUBLIC FORUM

Residents advised the meeting that drains to their properties were backing up due to the debris, diesel and engine oil which is being washed down the surface water drainage system. Anglian Water has visited twice and diagnosed this as the problem and advised that a third of a 9” drain was blocked with this waste. Properties on East Halton Road are being affected with bad smells – sinks, toilets and washing machines are being affected. This waste is also getting very close to a dyke to the side of a property on East Halton Road. Clerk to report to N.L.C drainage team and the environmental team

Problems are still being experienced with the DONG Energy dumper trucks (contractors vehicles) which are creating unnecessary dust by lifting their dust covers as they travel down Lancaster Approach and not starting their return journey with the dust covers on. Cllr Broddley agreed to email Dereth Morgan about this problem.

There have been a number of accidents close to the Lancaster Approach junction and drivers behaviour when an accident has taken place is also unacceptable.

ii) Traffic/Highways – Cllr Wells agreed to ask N.L.C to assess the junctions on East Halton Road and establish if any additional signage or white line markings can help safety in this vicinity. iv) Open storage concerns at Lancaster Approach – A thorough response from N.L.C environmental team has been received and they are ensuring that all the necessary monitoring is in place and being recorded.
